NO.

SUBJECT: RESOLUTION AUTHORIZING APPLICATION FOR GRANT FUNDS
URBAN STREAM RESTORATION PROGRAM

RECOMMENDED ACTION: That the City of Lodi adopt a resolution authorizing application for grant funds provided by the Department of Water Resources Urban Stream Restoration Program, for the proposed Mokelumne River-Lodi Lake Wilderness Area Stream Restoration Project.

BACKGROUND INFORMATION: The Department of Water Resources (DWR) Urban Stream Restoration Program began in 1985 through the efforts of a coalition of local water districts, neighborhood organizations, environmental groups, and city and county government. The objectives of the program are to assist communities in reducing damages from stream bank and watershed instability and floods, while restoring the environmental and aesthetic values of streams.

On December 11, 1987, the City of Lodi submitted to DWR a total grant request of \$50,000 to stabilize the stream banks of the Mokelumne River and enhance its surrounding watershed environment within the Lodi Lake Wilderness Area, in a manner consistent with the Lodi Lake Master Plan.

As was the case with Lodi, resolutions cannot always be attained in time to meet the grant submission deadline. Therefore, the subject grant application was submitted with the contingency that a City Council resolution would be adopted at the next regularly scheduled Council meeting.
